

# EcoloTOP®

## Innovative and practical system

EcoloTOP is a lid of variable size for waste bins allowing two-way collection of waste (trash / recyclables or compostables).

**IMPORTANT:** Conservation of existing public waste bins while going green.

EcoloTOP version  
with optional lids.

# The Green / Recycling solution

5 to 25 times less expensive than buying waste bins with 2 compartments.

Compatible for use with various types and sizes of plastic bags.

Quick and easy installation of the lid and bags, and thus reduction of costs related to labor.

EcoloTOP is designed for an efficient stacking, minimal packaging, lowering transport costs and optimizing storage.
